Minutes Template

Subject:	Meeting with Krishna Ragil from Haemograph
Group name/ identifier	Group 24
Meeting Location, Date & Time	Online on Microsoft Teams Date – 27th March 2026, Time – 9 am to 10 am
Group members present	Jianhao Zhang, Ria Mishra, Rohan Roy Mathew, Xingcan Wang, Xuan Zhang
Apologies	

1 Actions from previous meetings

Task	Who is responsible	Deadline
Define problem statement, aim and objectives		
Start literature review and identify key features	Team	
Explore open-source datasets	Team	
Build fundamentals of rheology, Fourier and wavelets	Team	

2 Items discussed and decisions made

Item	Decision (if applicable)
Project timeline & milestones	Timeline to be created including requirements identification, specifications identification and feasibility testing
Documentation & collaboration	All work to be maintained on Teams with continuous updates
Friday meeting format	Meetings should focus on asking client questions rather than presenting existing information
Deliverables for next week	Problem statement, aim, objectives, scope, requirement analysis and stakeholder analysis to be prepared
Signal analysis methods	Methods beyond Fourier to be explored due to loss of transient details
Dataset requirements	Data should have approximately 100 Hz sampling rate

3 Agreed actions from this meeting

Task	**Who is responsible**	**Deadline**
Go through papers and develop problem statement, aim and objectives	Team	
Prepare MoM document	Ria Mishra	
Assign papers to team	Ria Mishra	
Create project timeline with milestones	Rohan	
Send MoM and problem statement document to host	Xingcan Wang	
Provide GitHub structure for code and data	Jianhao Zhang	
Track assigned papers and literature review structure	Xuan Zhang	
Testing with datasets for requirement analysis	Rohan, Ria Mishra	
Explore different methods (Wavelet, Fourier, ANN etc.)	Xingcan Wang, Jianhao Zhang	
Define error metrics and benchmarks	Xuan Zhang	

4 Next meeting

Location	Online Teams Meeting
Date & Time	3rd April, to be changed due to public holiday
Goals	• Finalize problem statement • Finalize aim and objectives • Requirement analysis • Stakeholder analysis
